LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO
PRIVATE BILLS.

RULE 59.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867," whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, or Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or, of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act, —shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such notice to be published as follows:—

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House, to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published.* At the time of depositing the Bill, the applicant shall also pay to the Clerk of the house a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the per-

son or persons intending to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring $10\frac{3}{4}$ inches by $7\frac{1}{2}$ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901, (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

HUGH GERALD NANGLE.

DOMINION ORDERS IN COUNCIL.

(Ref. 1,561,821.)

AT THE GOVERNMENT HOUSE AT
OTTAWA.

Friday, the 27th day of March, 1908.

PRESENT:

HIS EXCELLENCY THE ADMINISTRATOR
OF THE GOVERNMENT IN COUNCIL.

THE Minister of the Interior states, under date the 6th March, 1908, that application has been made to the Department of the Interior by Mr. George H. Turner, of Mission City, B. C., for permission to purchase the west half of Section 1, the whole of Sections 2 and 3, and the south half of Section 4, in Township 4, Range 4, west of the

7th Meridian, in the Province of British Columbia, for the purpose of manufacturing brick and other products of clay.

The Minister further states that an inspection of the lands applied for has been made by the Crown Timber Agent of New Westminster, who reports that they contain very little merchantable timber; that such timber as there is on the land is not more than would be required to carry on the business which it is proposed to establish; and that while the lands in question have been frequently examined by timber cruisers no applications have been made for licences to cut timber thereon. It would appear also that the lands in question are precipitous, and therefore of little value for agricultural purposes;

That the tract for which Mr. Turner has made application is situated in unsurveyed territory, but as he prepared to establish an industry of some magnitude on lands which would otherwise seem to be of little value, it would appear to be in the public interest to favourably consider his application.

The Minister therefore recommends that he be authorised to reserve for the applicant the land for which he has applied, the timber, however, on the said lands remaining reserved to the Crown, and in the event of said applicant using any portion of said timber he shall be required to pay the regular timber permit dues thereon; and the said land be disposed of to the said applicant for the purpose mentioned, at the rate of \$1.00 an acre, upon his complying with the following conditions:

1. That he shall erect upon the property a plant of a capacity of at least fifty thousand bricks per week;

2. That such plant shall be in operation, and shall have actually produced not less than one million bricks, within three years from the date upon which the sale may be authorised;

3. That until the above conditions have been complied with and patent for the lands in question issued, he shall pay to the Crown the cost which may be incurred in properly guarding the merchantable timber in the vicinity from fire which may result from his operations;

4. That failure on the part of the applicant to comply with any of the conditions herein contained shall be followed by cancellation of the reservation and sale, and the forfeiture to the Crown of the amounts which may have been paid;

5. That the reservation and sale shall be subject to the rights of the Provincial Government of British Columbia in respect of the minerals which may be found to exist on or under the land;

6. That as soon as satisfactory evidence is furnished to show that the conditions herein contained have been fully complied with, the purchase price at the rate of \$1.00 an acre paid, and the land surveyed, a patent be issued in favour of the applicant for the lands in question, reserving thereout and therefrom the mines and minerals and also the coal which may be found to exist on or under such land.

The Minister observes that Mr. Turner has also submitted an application for permission to acquire the fractional south-west quarter of Section 2, Township 7, Range 26, west of the 6th Meridian, containing an area of 144.75 acres, more or less, upon which to erect a glazing plant in connection with the manufacture of the clay products from the lands above described. The Agent of Dominion Lands at New Westminster reports that no applications have been made for permission to acquire this land for agricultural purposes, and that he is not aware of any objection to its being disposed of for the purpose which the applicant has in view.

The Minister also recommends,—as it would appear to be necessary for the successful carrying out of the enterprise contemplated, that the applicant should have, at some point of easy transportation, a plant for the treatment of the unfinished products of his manufacture,—that he be authorised to reserve for Mr. Turner the land in question, and to dispose of it to him at the rate of \$1.00 an acre, reserving the mines, minerals, coal and Provincial rights, subject, however, to the erection thereon and the actual operation within a period of three years from the date upon which the sale

may be authorised, of a glazing plant of a capacity and design suitable for the purpose and satisfactory to the Minister of the Interior, and subject also to his having complied in every respect with the conditions and requirements above set out in connection with the purchase of land for the manufacture of brick and other clay products; the patent for the land to be issued as soon as satisfactory evidence is furnished to show that all the conditions above set out have been fully complied with.

The Committee submit the same for approval.

Clerk of the Privy Council.
